**TO WHOM IT MAY CONCERN**

We hereby confirm that Mr. Roger Widmer, born on March 29, 1965, was employed by the Capital Group from April 1, 2007 to November 30, 2009 within the Information Technology department in our Geneva office. Prior to being permanently employed by Capital International S.A., Roger has worked as a Contractor for three months. On July 1, 2008, Capital International S.A. became Capital Group Corporate International. This change was part of a corporate restructure and Mr. Widmer's responsibilities did not change.

Roger was employed as an Application Rollout Analyst in our Application Rollout Services team. As such, he coordinated the deployment phase of key European Investment Application releases extremely well. This required effective management and coordination of projects and project resources (developers, DBA's, server teams, middleware, data security, and application support technicians) to successfully deploy business software. Roger created as well a Lotus Notes tool designed to assist in tracking and managing processes involving Application releases.

Roger has performed all his duties to our full and entire satisfaction. He proved to be a responsible associate, who took pride in his work. He adjusted easily to our environment and working standards; he contributed to ongoing improvements of these. Roger was able to balance project and operational tasks effectively; he demonstrated the ability and flexibility to cope with different responsibilities and a high volume of work, even under pressure, always delivering his tasks with professionalism in a reliable, conscientious and timely manner.

Roger was a valuable and trusted team member, who maintained excellent relationships with his colleagues and managers. He was also always willing to take initiative, especially when it came to helping other team members.

Roger's contract with our company was terminated further to a decision to centralize most of the Information Technology functions in North America.

We would like to take this opportunity to thank him for his contribution to our company and wish him every success in his future career. We recommend him without hesitation to a future employer.

Steve Lewis

Vice President - Information Technology

Sally-Ann Tschanz

Vice President - Human Resources Europe
