## Certificate

### TO WHOM IT MAY CONCERN

This is to certify that Mr. Roger WIDMER, born 29 March 1965, has been employed by the Geneva Branch of Trans-World Metals SA from May 1996 to June 30, 2000. Mr. WIDMER was initially employed to work in the trading/back office of the company. Due to changes in our organisation he was given the responsibility of supervising our information systems.

This work included the administration of our computer network consisting of a Windows NT 4 server and Windows 95 workstations. His activities entailed the design of the user and group structure; selection, installation and maintenance of the operating and user systems; installation and maintenance of the internet service. He performed these tasks to our complete satisfaction.

Mr. WIDMER also developed, in co-operation with the users, several databases using Access and Visual Basic. These databases have proved to be most useful to our operations.

Mr. WIDMER is an intelligent and competent person to whom others turn for assistance and guidance. With his warm character he has maintained good relations with his superiors and colleagues alike.

Due to a reduction in our business we have been forced to terminate Mr. WIDMER's employment contract. He leaves us free of all engagements with the exception of that related to professional secrecy. Our best of wishes accompany him in his future activities.
